

Welcome!

- Today's meeting will be recorded.
- Please take a moment to familiarize yourself with Zoom. Ensure your audio and video are connected.
- Please mute yourself when you aren't speaking.

Button	What it does
 Mute	You can mute and unmute the microphone by clicking this button. Once muted, this icon will appear  . No one will be able to hear you when you are muted.
 Stop Video	Using this button, you can control your video by turning it on and off. You also have access to more advanced settings such as: • Setting a virtual background such as a blank wall or decorative scene. • Flip your screen.
 Share Screen	If permitted by the host, you can use this feature to share your screen. Once enabled, you can choose which screen to show. This feature is useful if you need to share a specific document with the rest of the audience such as a PowerPoint presentation or a PDF.
 Chat	Using this button, you can chat in a typical instant message style. Messages can be sent to all participants or to individual participants. This feature is particularly helpful if you need to message the host if they're speaking quietly, or if you have a question.
 Reactions	Reactions allow all meeting attendees to make little icons appear in their video windows. The two options are a thumbs up and clapping hands.

Peel Street Reconstruction Project

Neighbourhood Information Session
June 2024

Land Acknowledgement

We acknowledge the Town of Saugeen Shores is located on the traditional lands and treaty territory of the Saugeen Ojibway Nation, which consists of the Chippewas of Saugeen and the Chippewas of Nawash Unceded First Nation.

We understand this land holds immense significance to the people of Saugeen Ojibway Nation. We appreciate those who live and work alongside us today and who continue the traditions of their ancestors as stewards of the land we are privileged to inhabit. We thank them for the contributions they have made in both caring for the land and in shaping this community.

We commit to truth and reconciliation. To acknowledging the truth about what happened to Indigenous peoples because of colonization, and to reconciliation – which begins with each and every one of us.

As a local government and public organization, we are dedicated to learning about Indigenous culture, to fostering a better relationship with First Nations and their people, and we commit ourselves to actions that move us forward on a path to healing along with the Saugeen Ojibway Nation.

Introductions

Town of Saugeen Shores

- Ruhul Amin
- Rose Lauder

Cobide Engineering

- Steve Cobean
- Len Perdue

Paradigm Transportation Solutions Limited

- Gene Chartier
- Lauryn Coughlan

Purpose of Tonight's Neighbourhood Information Session

The purpose of tonight's meeting is to:

- Present information about the Peel Street reconstruction project
- Gather input on cross-section design following the Town's *Cottage Streets Design Guidelines* (May 2024)

Agenda

1. Project Overview
2. Cottage Streets Overview
3. Design Considerations
4. Next Steps

Please share your feedback and fill in a comment sheet!

Why is the Town Reconstructing Peel Street?

- Replace gravity sanitary sewer and watermain
- Install storm drainage
- Repave road (asphalt)
- Other surface features to be determined

Surrounding Environment

Project Considerations and Constraints

- Narrow Pavement Width
- Need for Improved Storm Drainage
- Right-of-Way Property Boundaries
- Utilities in Right-of-Way
- Need for Pedestrian Movement
- Existing Trees in Right-of-Way

What is a Cottage Street?

Cottage Streets can be described as “character” streets that serve the function of a Local Road (as defined in the Town of Saugeen Shores Official Plan) but are (generally) short in length, (usually) have narrower rights-of-way and/or pavement widths, and (often) do not meet other (typical) engineering design standards.

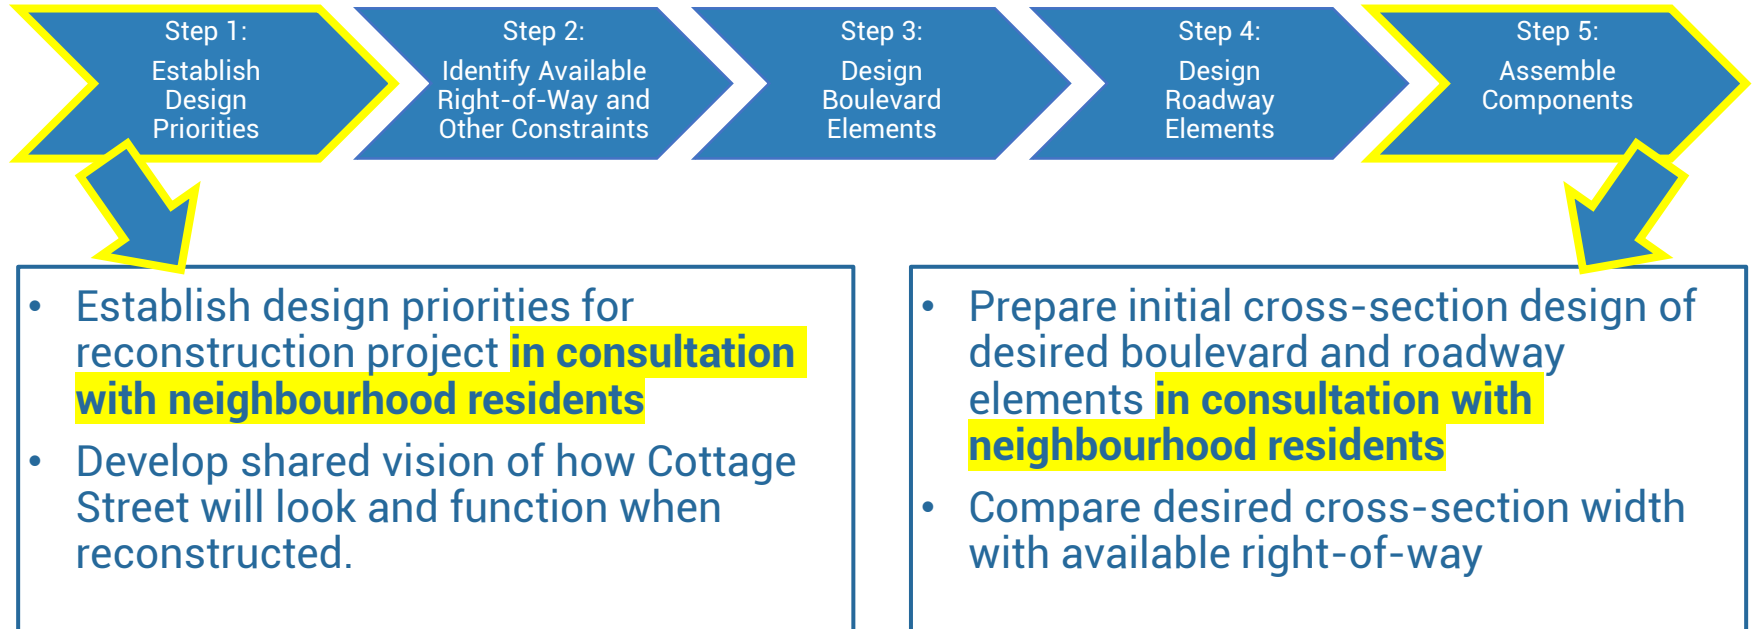

Under municipal jurisdiction, Cottage Streets differ from private roads and lanes, providing public access to both year-round and seasonal residential properties and other amenities, including the Lake Huron beachfront.

Cottage Streets Guidelines and Application

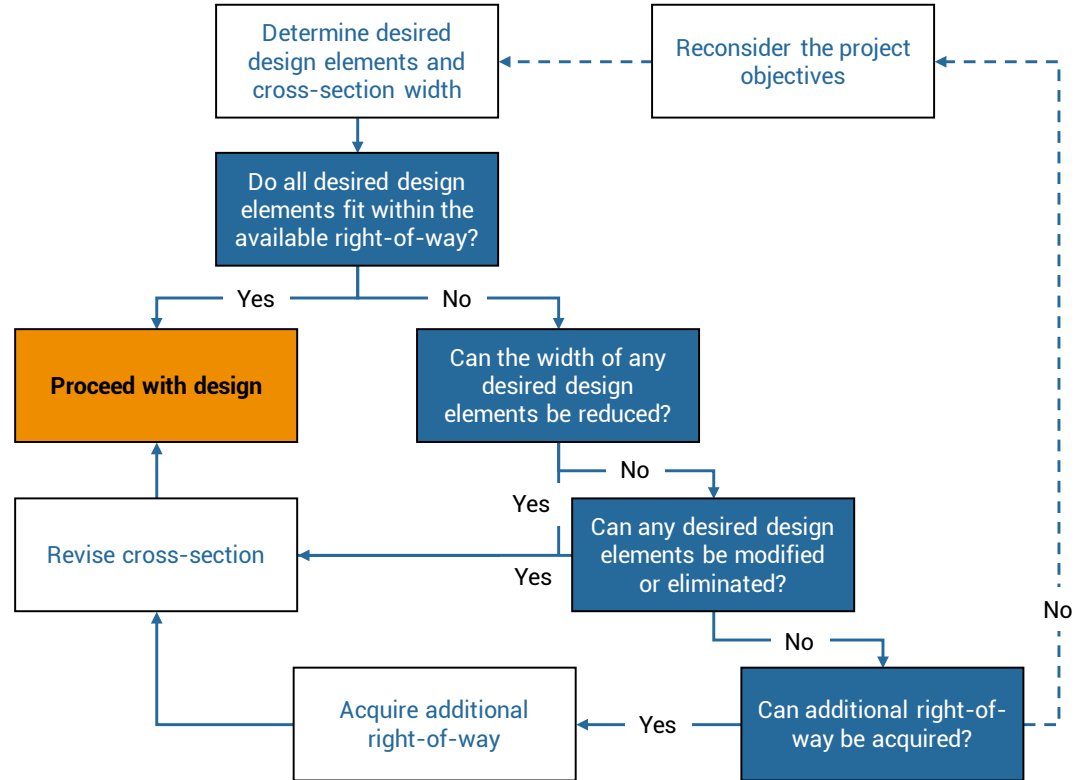

- Provide supplemental guidance/process for reconstruction of designated Cottage Streets to address atypical characteristics
- Denote design criteria specific to Cottage Streets and offer advice for considering trade-offs from typical practice
- Provide flexibility needed to adapt to local context while still meeting test of good engineering judgement
- Offer design process for Cottage Street reconstruction projects

Guidelines apply to identified roads, including Peel Street.

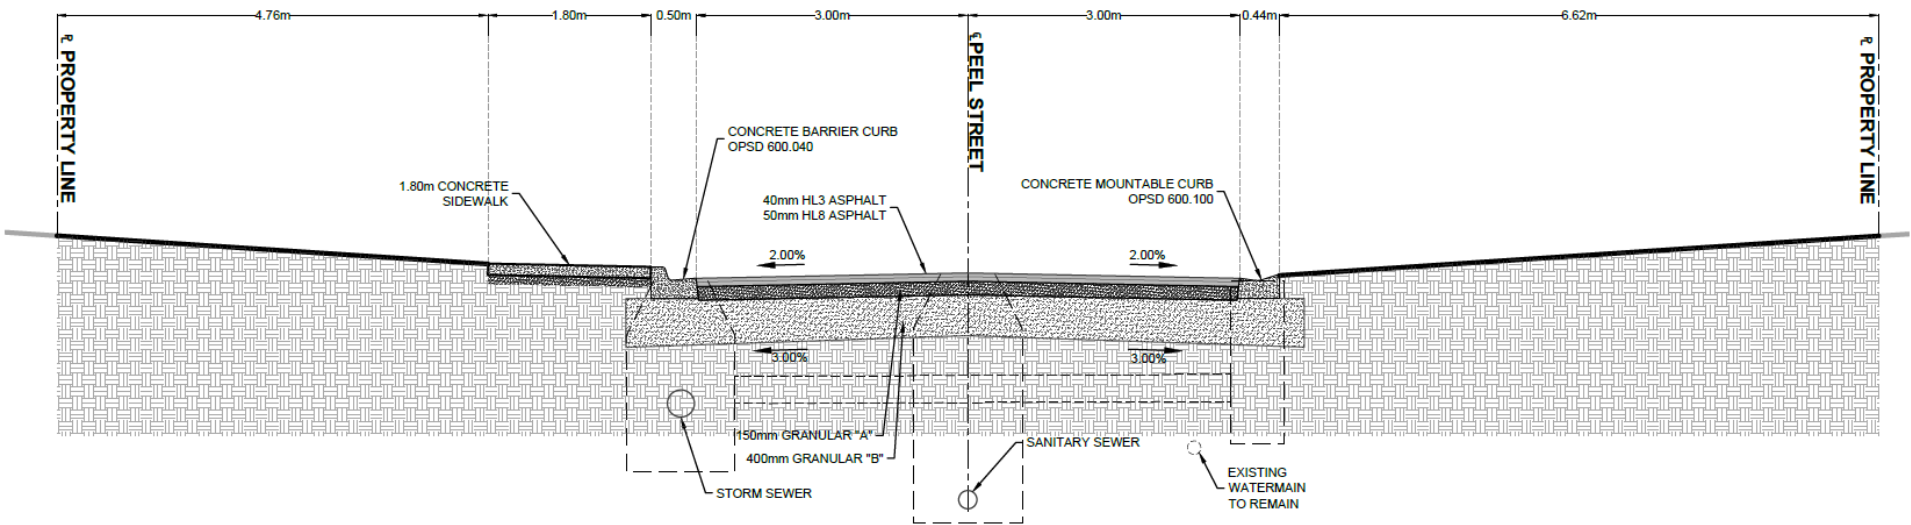

Cottage Streets Design Process

Cottage Street Decision Making Process

Initial Cross-Section Concept

Cross-Section Elements

- Number of Lanes
- Minimum Lane Widths
- Pavement Surface Type (Asphalt)
- Parking
- Drainage
- Edge of Pavement Treatment
- Sidewalk
- Other Boulevard Features (?)

Neighbourhood Feedback

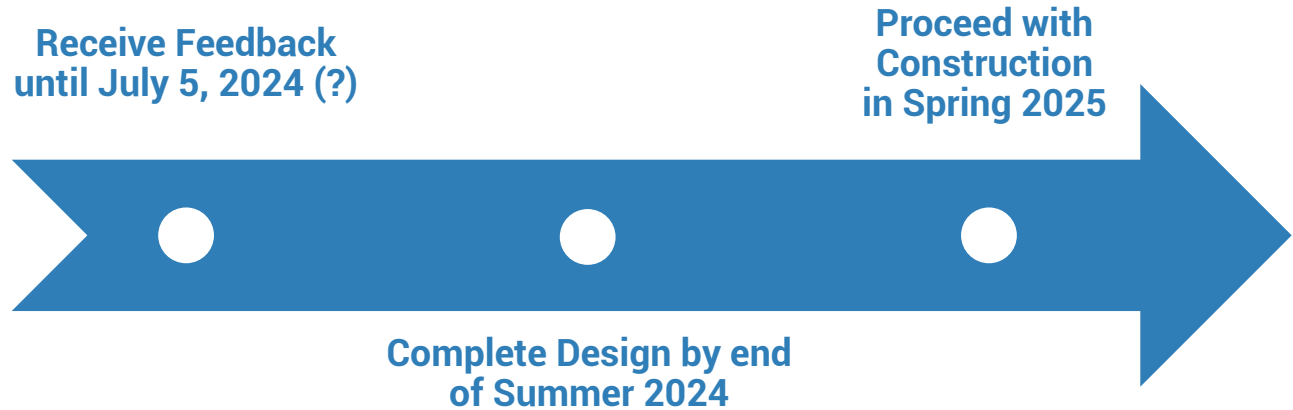

- Please provide feedback on cross-section design under consideration through Streetmix interactive design activity
- Please fill out a comment sheet or complete online at:
