

PRE-CONSTRUCTION PUBLIC INFORMATION CENTRE

HIGH STREET RECONSTRUCTION Phase 1 - Victoria Street to Grosvenor Street

The Town has commissioned MacDonnell Excavating Ltd. to undertake construction of the design improvements on High Street. This project includes road and streetscaping upgrades, drainage improvements, the installation of new sidewalks and curbs, and upgrades to the traffic signals at the Albert Street intersection.

Schedule and Work Hours

- Construction is expected to start in early May 2025, and be completed in September 2025.
- Generally, work will take place between 7:00 a.m. to 7:00 p.m. Monday to Friday. No work is expected on weekends or during statutory holidays.
- Project updates will be posted on the Town’s webpage.

Will I still be able to access the downtown businesses?

- Two-way traffic will be maintained along High Street throughout construction.
- Entrances will be maintained to dwellings and businesses. However, for very short periods of time some entrances may be restricted, and alternate means of access will be provided.
- We encourage the public with mobility limitations or special needs to contact the project team so their specific needs can be addressed.

Who do I call if I have a question?

If you have any questions about the construction project, you can contact the Contractor's Public Relations Officer (PRO). The PRO is your main point of contact for any concerns related to the construction.

Additionally, R.J. Burnside & Associates Limited is managing the project for the Town, so you can also reach out to them with any questions.
