NOTICE OF PUBLIC INFORMATION CENTRE #2

Class Environmental Assessment for the Expansion of the Saugeen Shores Water Treatment Plant

Town of Saugeen Shores

The Town has retained Ainley Group to undertake the Municipal Class Environmental Assessment (MECA) for the planned Expansion of the Saugeen Shores Water Treatment Plant. The study is being conducted in accordance with the 'Schedule C' requirements of the MCEA (as amended in 2024).

Public consultation is a key part of the MCEA process. A second Public Information Centre (PIC) has been planned to provide an opportunity to review the study background, existing conditions, problems and opportunities and recommended solution. PIC #2 will display the preferred long-term solution to satisfy the Town's water supply needs. It will outline a phased approach that leverages existing infrastructure and minimizes costs as the Town prepares for growing water demand. The PIC will also serve as a forum to receive public feedback, which will be considered as part of the decision-making process.

Location: Rotary Hall, The Plex, 600 Tomlinson Drive, Port Elgin

Date: October 6, 2026 **Time:** 6:00 p.m. – 7:30 p.m.

Following the PIC, all additional information will be posted on the project webpage at engage.saugeenshores.ca/WTP.

For questions or more information, please visit the project page listed above or contact:
